2013 - 2017

Okhotsk Sea

Pacific Ocean

KOMEX - Kurile Okhotsk Sea Marine Experiment

KALMAR - Kurile-Kamchatka and Aleutean Marginal Sea-Island Arc Systems

Kurile-Kamchatka and Aleutean Marginal sea-island systems:

Geodynamic and climate interaction in space and time

Geodynamic Development of the
Kuril-Kamchatka-Aleutean
System and the Active Plate Margins

- 1 Neotectonic
- 2 Geodynamic
- 3 Volcanic-magmatic

Oceanographic and
climatic development
of the subarctic
NW Pacific Ocean

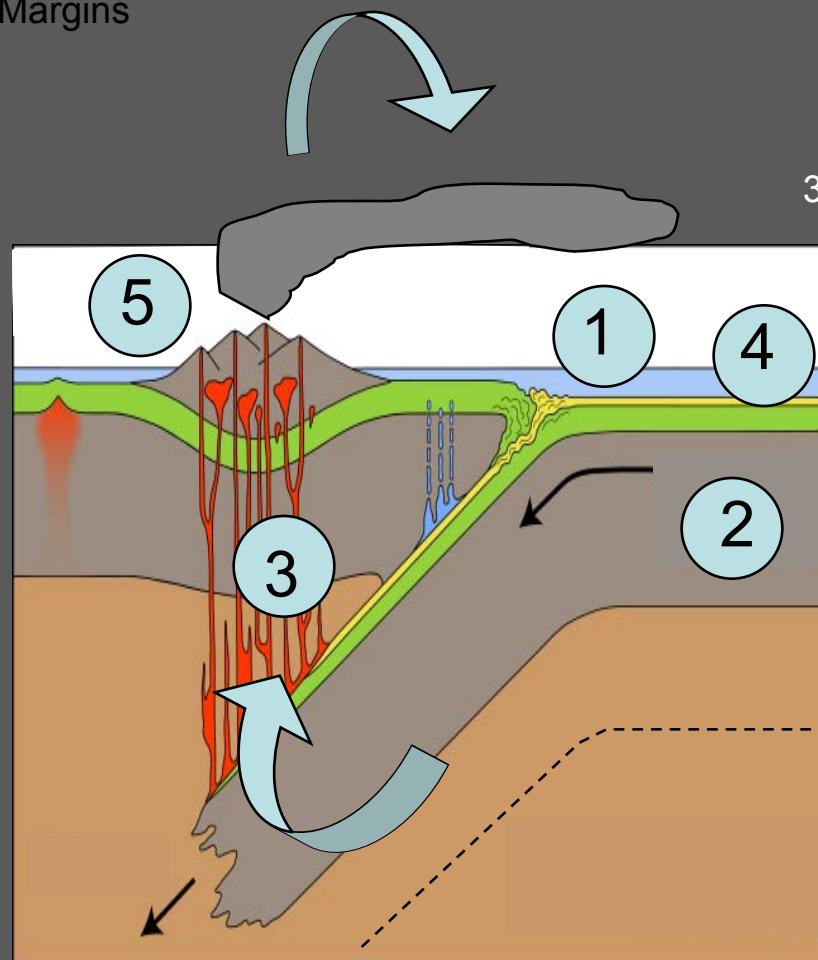

- 4 Marine Climate
- 5 Land Climate

Геодинамическое развитие систем
Курилы-Камчатка-Алеуты как
активной границы плит

- 1 Неотектоник
- 2 Геодинамика
- 3 Вулканические-магматические
процессы

Формирование климата
И Океанографических
процессов в субарктической
Части Северо-Западно
Пасифики

- 4 Морской климат
- 5 Наземный климат

Subproject 3b: The origin and evolution of the oceanic crust in the NW Pacific and its recycling in the Aleutian Arc

German cooperation partners

Prof. Dr. K Hoernle, Dr. R. Werner, Dr. M. Portnyagin, Dr. F.Hauff
IFM-GEOMAR, Kiel

Russian cooperation partners

Prof. Dr. G. Avdeiko*, Dr. B. Baranov**, Dr. S. Silantyev ***

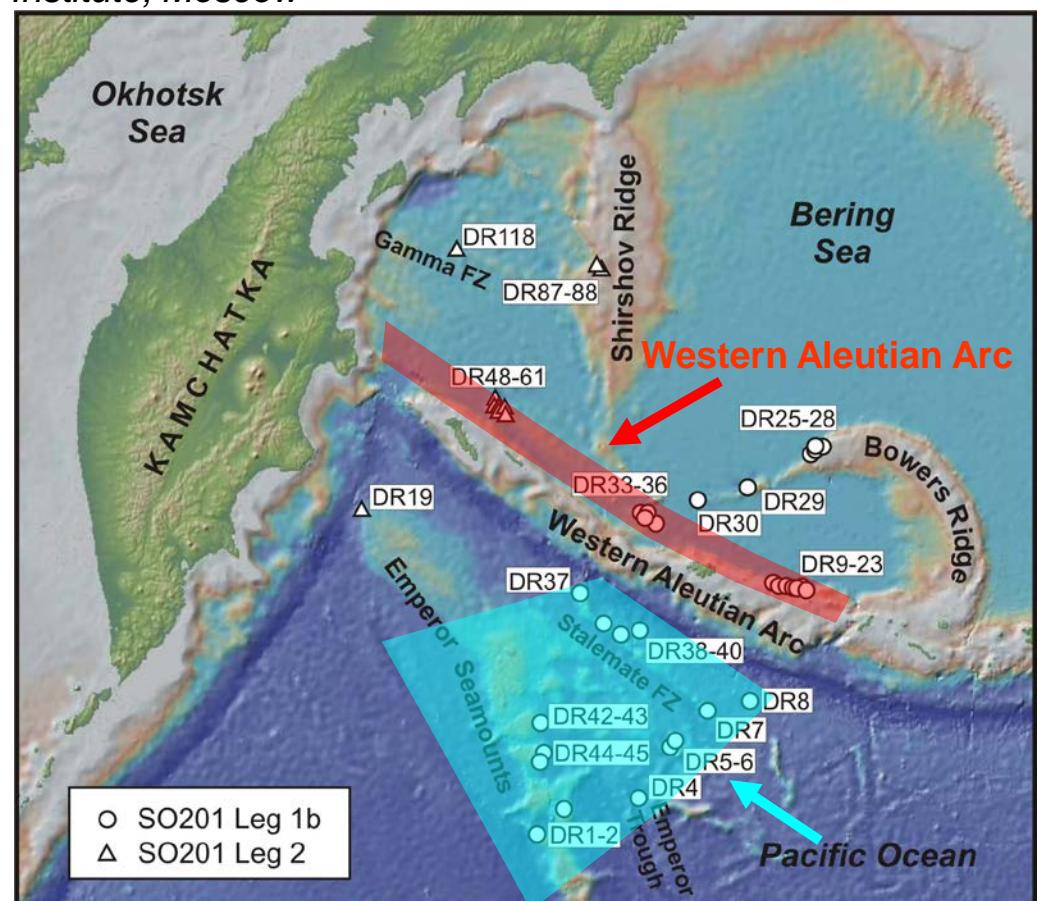

* Institute of Volcanology and Seismology, Petropavlovsk,

** Shirshov Institute, Moscow, *** Vernadsky Institute, Moscow

Goals SP3b

- characterize along arc variations of magmas and their origin in the Western Aleutian Arc – end-member arc system
- investigate magma origin at the oldest Emperor Seamounts and neighbouring seamount province
- and others....
